GPS Active Tracking System / Excessive Speed Buzzer.

All bikes are equipped with an active GPS Tracking system, reporting LIVE 24/7 and registering at all time the position and speed of the bike. In case of an accident when speeding, the insurance policy is void and all repair cost will be for the driver, with no limitations whatsoever. Speeding can be proved by the electronic device and I usable in court.

We receive a daily report, proving when speed is exceeded, on any type of road, and at any point in time, with the details of the speed recorded at the time. When the bikes rides over 140km/h we receive an immediate e-mail, in real time.

Some of our vehicles are also equipped with an active "buzzer". The alarm will start ringing when you ride far above the legal speed limit on Tarmac and on Gravel roads, to remind you are de facto riding without insurance, taking unnecessary risks. it will only stop after you slow down to reasonable speed. Tampering with the electronics of the bike will result in a immediate and non-reversable total loss of your deposit to the benefit of the company.

- Punctures / Flat or Damaged Tires: In the event of a flat tire, the renter will be responsible for the repair and repair costs.

Tires are NOT covered by the insurance. Repaired tyres are not accepted upon return.

Due to the remoteness of some of our areas, we strongly recommend that the renter should be able to repair a puncture.

A repair kit is provided with each motor-bike or group of motorbikes.

A compressor is provided with each motorbike or group of motorbikes.

NamiBike Adventure can provide assistance and back-up in case of tires problems.

However, when the renter requests NamiBike Adventure assistance for a puncture > Assistance / Recovery costs are for the renter's account. In such circumstances where the Recovery / Assistance is charged to the client, it is charged at 13N\$ per km (prepaid according to estimation as per GPS location). Any bike will be delivered with tires with a minimum of 50% profile of a new tire.

In case of a puncture or a damaged tire during the rental, the renter can fix it. When returning the motorcycle, the renter will be charged for the damaged tire as the damaged tire has to be replaced by a new one. The renter will only be charged for the existing % of profile and not by definition for a whole new tire. In case the renter purchased a new tire when starting the tour, and the tire has been damaged, he will not be charged for a new tire, he will also not be refunded for the remaining mm of profile.

New Set of tyre option > On special request, we can deliver the bikes with a new set of tires (tarmac or off road), at an extra cost of 4.000 N\$.

For tire delivery, we cannot guaranty any time frame, it usually takes 24h00 to 48h00 to deliver a tire anywhere in Namibia.

Riding Gear : Helmets and other motor cycle gear ARE NOT available for rent at our premises.

Please bring your own equipment as you deem necessary. We strongly recommend that you wear full riding gear at all times. We purposely made the decision NOT to rent riding gear because we believe experienced rider will have (and prefer) their own equipment. Due to the nature of our roads, environment and extreme weather conditions, we only want experienced and well equipped riders on our motorcycles.

We do however have a couple of extra helmets in case you lose yours on the way to Namibia... We are here to help.
